Meeting in Strasbourg with 50 CEPEJ Pilot courts on 10 October to trial and comment on the diverse ongoing work of the CEPEJ

HEADLINE STRASBOURG | 13 SEPTEMBER 2018

The 13th plenary meeting of the CEPEJ Network of Pilot courts took place in Strasbourg on 10 October 2018. Courts visiting from all member States and some observer States of the Council of Europe, worked on the following themes : judicial timeframes, which the CEPEJ wishes to refine in relation to its existing tools in the area ; dashboards, which are used as a court management tool; the case weighting system and judicial communication with the public and the media. The meetings signify a prime opportunity for information sharing: the courts being the privileged beneficiaries of the work and achievements of the CEPEJ-for reflection (the Network is consulted on the problems addressed by the CEPEJ), as well as experimentation whilst the courts are invited to trial some specific measures proposed by the CEPEJ.

Artificial intelligence and data analysis: Defining clear processing purposes compatible with fundamental rights

At a glance

In setting up the European Commission for the Efficiency of Justice (CEPEJ) at the end of 2002, at the initiative of the European ministers of Justice who met in London (2000), the Committee of Ministers of the Council of Europe wanted to establish an innovative body for improving the quality and efficiency of the European judicial systems and strengthening the court users' confidence in such systems.

Presentation of the CEPEJ

The CEPEJ develops concrete measures and tools aimed at policy makers and judicial practitioners in order to:

- ▶ Analyse the functioning of judicial systems and orientate public policies of justice
- ▶ Have a better knowledge of judicial timeframes and optimize judicial time management
- ▶ Promote the quality of the public service of justice
- ▶ Facilitate the implementation of European standards in the field of justice
- ▶ Support member states in their reforms on court organisations

The CEPEJ also contributes with specific expertise to debates about the functioning of the justice system in order to provide a forum for discussion and proposals and bring the users closer to their justice system.
