14th annual meeting of the network of pilot courts of the CEPEJ

HEADLINE BARCELONA (SPAIN) | 3 OCTOBER 2019

The CEPEJ's Network of pilot courts, composed of about fifty European courts, makes it possible to collect the opinion, comments and reactions of legal practitioners on the various works in progress within the CEPEJ. This network, composed of civil, criminal and administrative courts of first and second instance, will meet in Barcelona on 3 October. During the meeting, particular attention will be paid to various topics currently being addressed by the SATURN Group on judicial time management, including case weighting methodologies, the establishment of European time limits for judicial proceedings and the preparation of dashboards on the work of courts. The corresponding documents, which are currently being prepared within the SATURN Group, will be the subject of discussions and exchanges with the members of the Network. In addition, reflections on how to ensure closer participation of the pilot courts in the work of the CEPEJ will also take place.
